

This is an original idea by Fun Phonics LTD January 2021 and Crack
the code Instructions

You will need scissors, card or paper to print on and a split pin
(optional just place the
hands in the appropriate positions if you don't have one)

Cut out the clock face template, hands and supporting code and
answer sheet.

Read the code and write the corresponding letters for example:

2 o'clock = t

4 o'clock = i

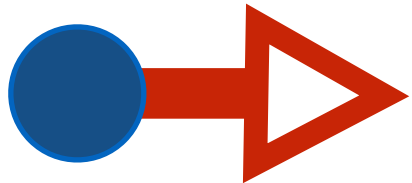

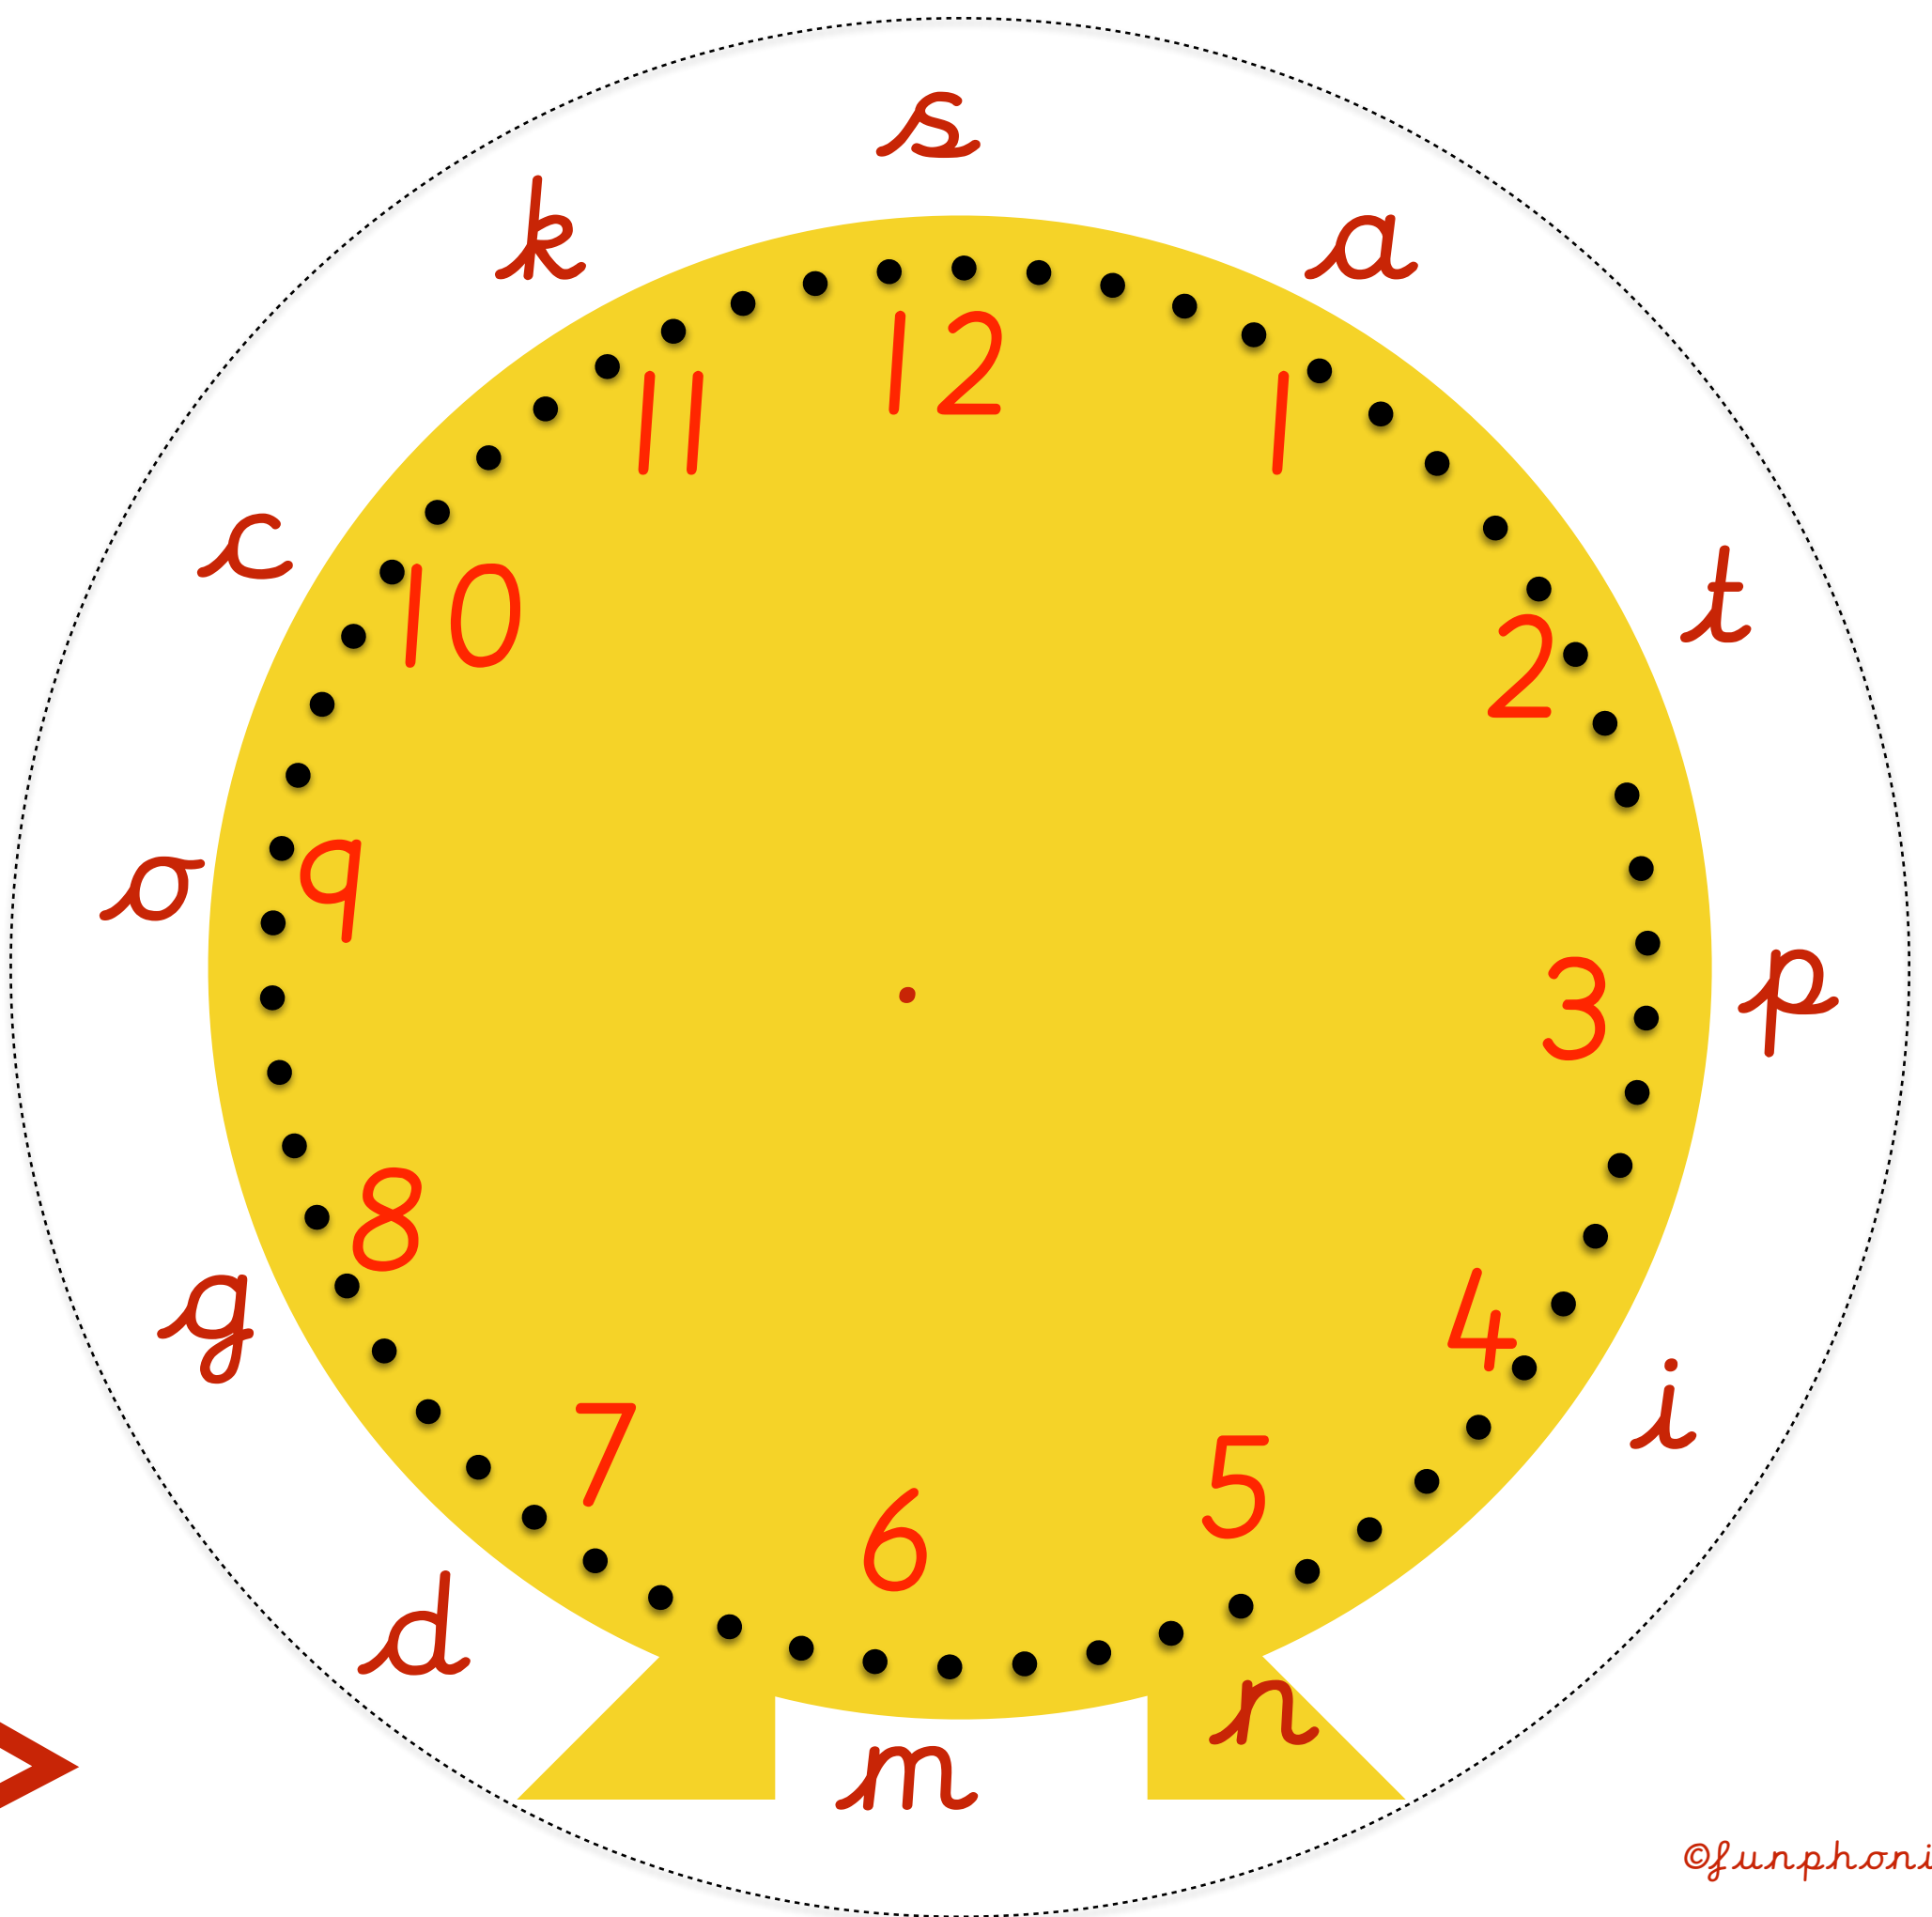

5 o'clock = n

put these three letters in the answer sheet to make word 'tin'

blend and read all of the words once you have cracked the code
